PineBridge Global Bond Fund

**RISK DISCLOSURE:**

- The Fund invests primarily in a portfolio of debt securities denominated in US Dollars and a range of other currencies and may be exposed to additional risks (e.g. fixed income, market volatility, currency, mortgage-backed securities (MBS) and other asset backed securities (ABS), Eurozone debt crisis, sovereign debt risks, and risk associated with instruments with loss-absorption features, etc).

This amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment and may result in an immediate decrease in the net asset value of the Fund.
- Investors may be subject to substantial losses due to investment loss risk and the leveraging effect of using FDI.
- Investors should not rely solely on this material to make investment decisions.

GLOSSARY

Beta: Reflects sensitivity of the fund's returns to that of benchmark returns. A beta of 1.05 suggests that the fund could perform 5% better than the benchmark in up market and 5% worse in down market, assuming all other factors remain constant.

Exit Fee: Fee charged to investors when they redeem unit from a fund.

Information Ratio: Measures the funds returns above the benchmark returns relative to the risk (volatility) of the excess returns. It is a measure that identifies the consistency of the manager to outperform the benchmark.

Initial Fee: Fee charged to investors when they purchase units in a fund.

Management Fee: Percentage of the fund's assets that unitholders pay annually as remuneration to the investment adviser for managing the fund.

Service Fee: Percentage of fund's assets that retail unitholders pay annually for distribution services.

Total Expense Ratio (TER): Estimated percentage (annualized) of fund assets used to pay for management fees and operating expenses, including service fees (if any) incurred by the fund. Fund expenses are reflected in the NAV. When calculating the TER, PineBridge has used the amount of expenses that it has received or estimated in its capacity as the Fund's Manager. Please note that the expense ratio includes variable expenses that are based on a number of factors including fund size, transactions, and other expenses. No assurance can be given that the TER will be realized over any future given period.

Tracking Error: Reflects the degree of variability of fund returns in relation to the benchmark. The lower the number the closer the fund's historic performance is to the benchmark.

Material change to the Sub-Fund: On 29 March 2011, the investment policy of the Sub-Fund was changed to remove the requirement that the majority of the Sub-Fund's investments to have a maturity of between three and five years. The performance for the years on or before 2010 was achieved under circumstances that no longer apply. From 21 March 2016, the benchmark of the Sub-Fund was changed from Citigroup World Government Bond (Unhedged) Index to Barclays Global Aggregate ex Securitised Total Return Index (USD Hedged). Such change was made because the Investment Manager of the Sub-Fund reasonably considered that such benchmark was more reflective of the Sub-Fund's investment strategy than the previous benchmark. Since 24 August 2016, the Barclays Global Aggregate ex Securitised Total Return Index (USD Hedged) has been renamed as Bloomberg Barclays Global Aggregate ex Securitised Total Return Index (USD Hedged) following an acquisition by Bloomberg. From 25 September 2018, the benchmark of the Sub-Fund has been changed to Bloomberg Global Aggregate Total Return Index (USD Hedged). Such change was made because the Investment Managers of the Sub-Fund reasonably consider that such benchmark is more reflective of the Sub-Fund's investment strategy than the previous benchmark.
