Refer to the "Structure of the Fund" section of the Singapore Prospectus for further information on features of the product.

Investment Strategy

- The Sub-Fund seeks long-term capital appreciation by investing in the equity and equity-related securities of companies whose assets, products or operations are in the Asian Region. It may also, to a lesser extent, invest in equity and equity-related securities of companies whose assets, products or operations are in Australia and New Zealand.
- A major proportion of the Sub-Fund's assets will be invested in large, well established companies with the remainder being invested in smaller companies.
- It will invest in the types of investments and subject to the restrictions set out in the Irish Prospectus.

- Subject to any currency conversion requirements and settlement holidays, redemption proceeds will normally be paid 5 Business Days after the Dealing Day on which the request was received in good order by the Administrator and Transfer Agent. - Your redemption price is determined as follows:
 - Requests accepted by the Administrator and Transfer Agent before 12.00 noon (Irish time) on a Dealing Day will be processed on that Dealing Day at the redemption price applicable to that Dealing Day.
