- The Sub-Fund seeks to maximise total return as described below.

Refer to "Structure of the Fund" in the Prospectus for further information on features of the product.

### Investment Strategy

- The Sub-Fund seeks to maximise total return by primarily investing in high yielding, sub-investment grade debt securities of issuers domiciled in or exercising a predominant part of their economic activities in the Asia Pacific Region.
- It will invest primarily in non-investment grade debt securities, including fixed or floating rate bonds that are issued by governments, supranational entities, public or private companies in the Asia Pacific Region.
- A combination of top-down and bottom-up investment philosophy, with a strong focus on a security's relative value, is used.
- The Sub-Fund will invest primarily in non-investment grade bonds or bonds which are unrated.

Refer to "Investment Objectives, Focus and Approach" in the Prospectus for further information on the investment strategy of the product.
